

Project Title

Global Enterprise Analytics Project

Project Objective:

To analyze and compare the performance of worldwide companies using Microsoft Excel by applying data analysis techniques, generating visualizations, and developing an interactive dashboard to derive meaningful business insights.

Dataset Description:

This project focuses on analyzing the performance of companies operating across different countries and industries. The dataset contains information such as company details, sales, revenue, profit, market performance, customer metrics, and other key business indicators. Using Microsoft Excel, the data is organized, cleaned, and analyzed to

identify trends, patterns, and performance differences among companies.

Various Excel features, including formulas, functions, Pivot Tables, charts, and dashboards, are used to summarize and visualize the data.

The project concludes with an interactive dashboard that provides a comprehensive overview of business performance, enabling users to make data-driven decisions and gain

valuable insights into the global corporate landscape.

Basic Data Exploration

1.CALCULATING RANGE FOR CUSTOMER LOYAL LEVEL?

```
IF(H2="Platinum","Valuable","Not Valuable")
```

STATE & CUSTOMER LEVEL

Descriptive analysis

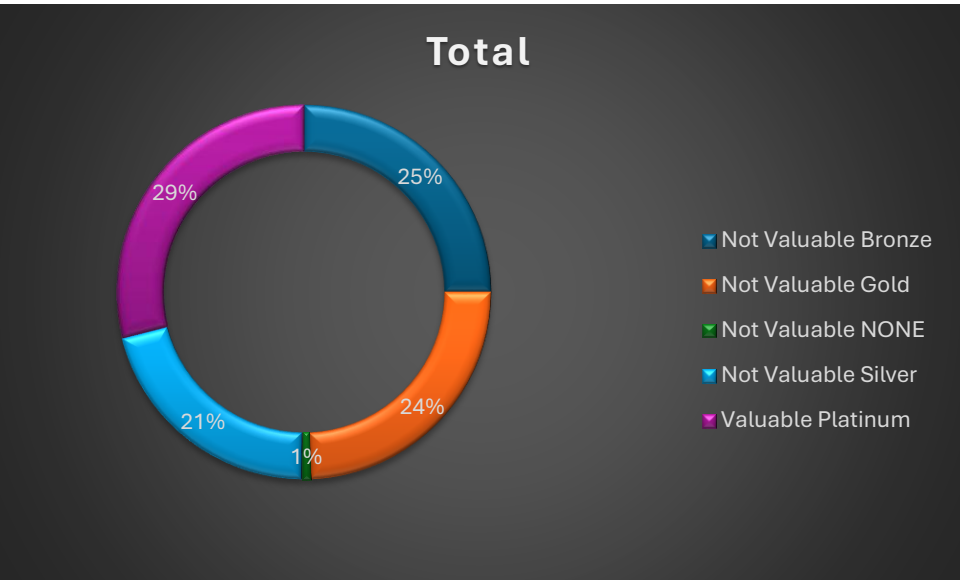

PLATINUM CUSTOMER MORE IN THE WASHINGTON,NORTH CAROLINGA,KANSAS

CUSTOMER RANGE

Descriptive analysis

IN THIS ANALYSIS FIND THE HOW MANY PLATINUM CUSTOMER FOR THE STORES

CITY & PEOPLE

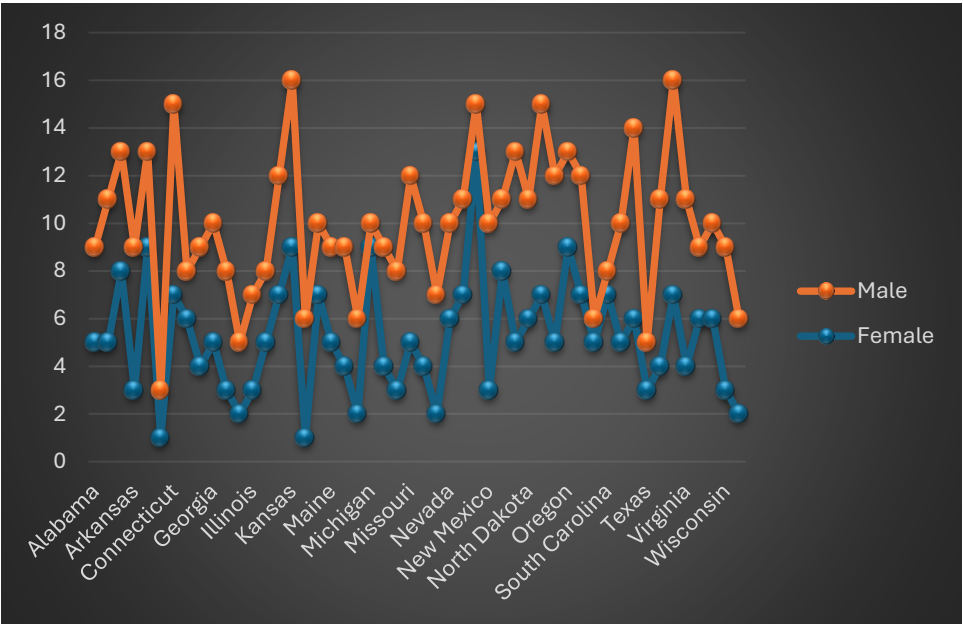

Descriptive analysis

MAXIMUM	16
MINIMUM	3
AVERAGE	10

KANSAS CITY IS HIGHEST VALUE OF PEOPLE BUY THE PRODUCT

COLORADO CITY LOWEST VALYE OF PEOPLE BUY THE PRODUCT

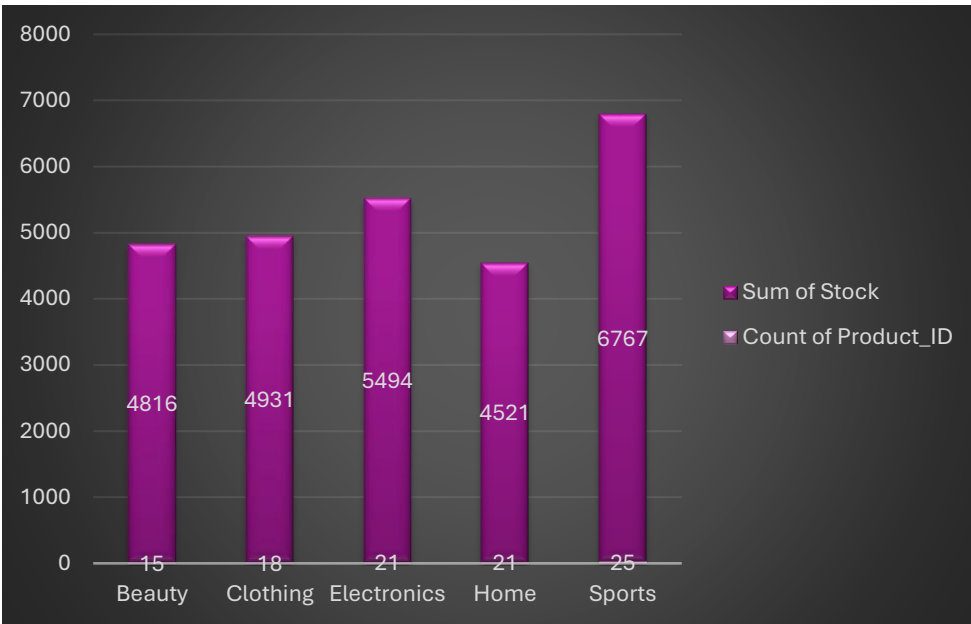

NEW JERSEY ,OHIO ALSO NEARST HIGHEST VALUE OF PRODUCT

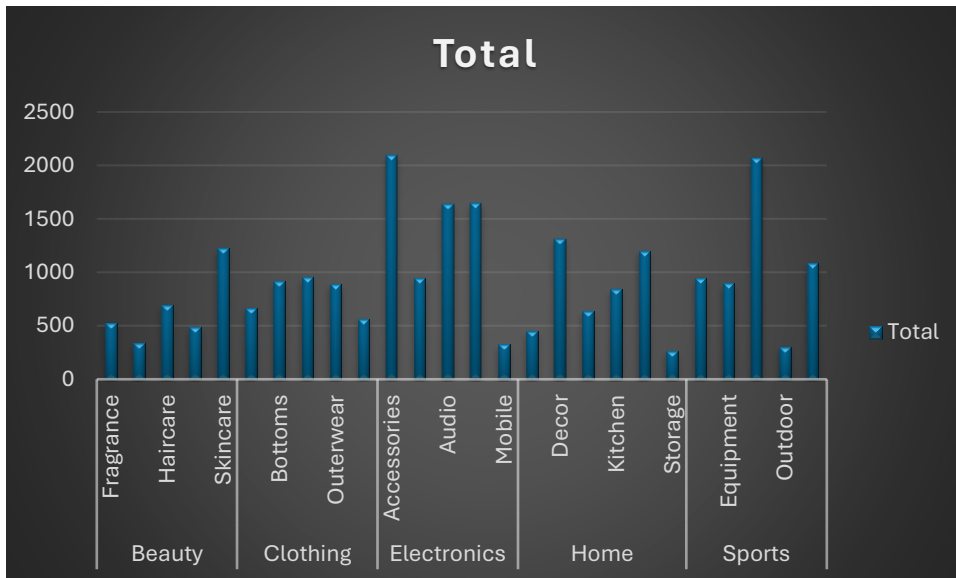

PRODUCT STOCK

Descriptive analysis

SPORTS PRODUCT WILL HIGH IN THIS STORES

PRODUCT & COST

Descriptive analysis

ELECTRONICS HIGH COST OF THE PRODUCT

BEAUTY PRODUCT 2ND COST OF PRODUCT

ACCESSORIES WILL SELLING MORE

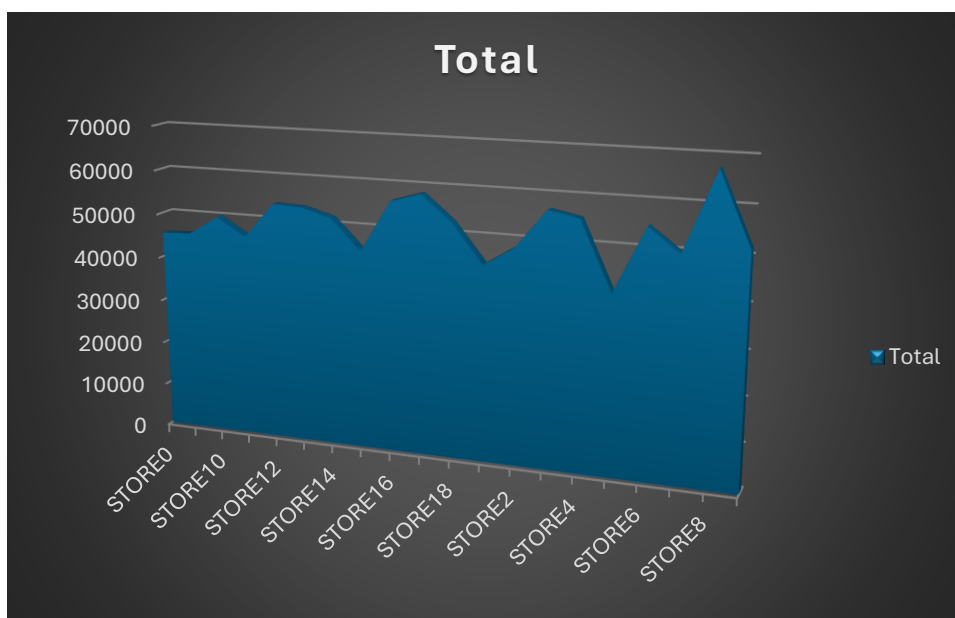

MOBILE LEAST PRODUCT

WE WANT HIGHLY SELLING

GROOMING VERY LOW PRODUCT

Descriptive analysis

MAX	67370
MIN	40299
AVERAGE	51321
STORE 8 HIGHEST UNIT PRICE	
STORE 5 LOWEST UNIT PRICE	

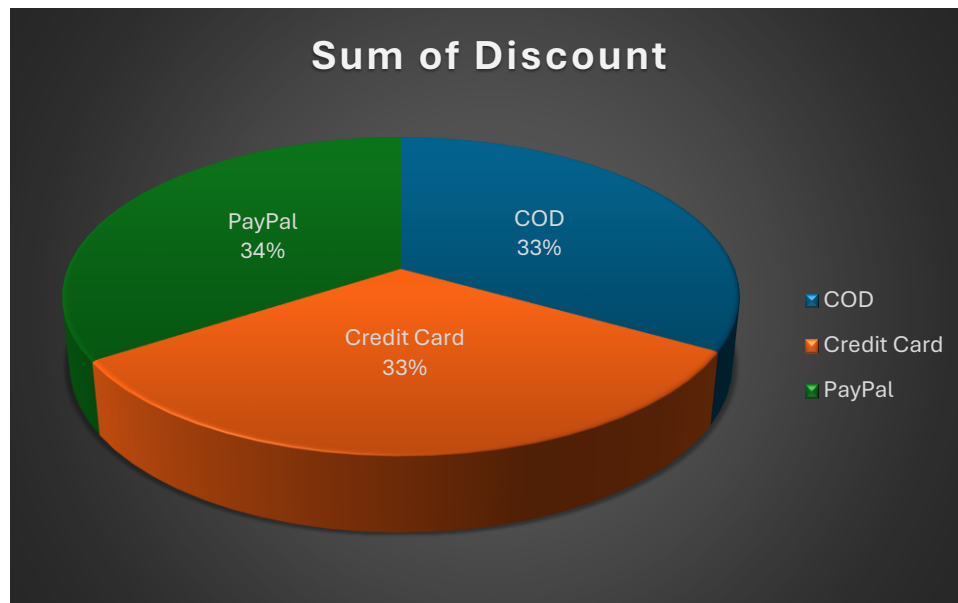

PAYMENT & REVENUE

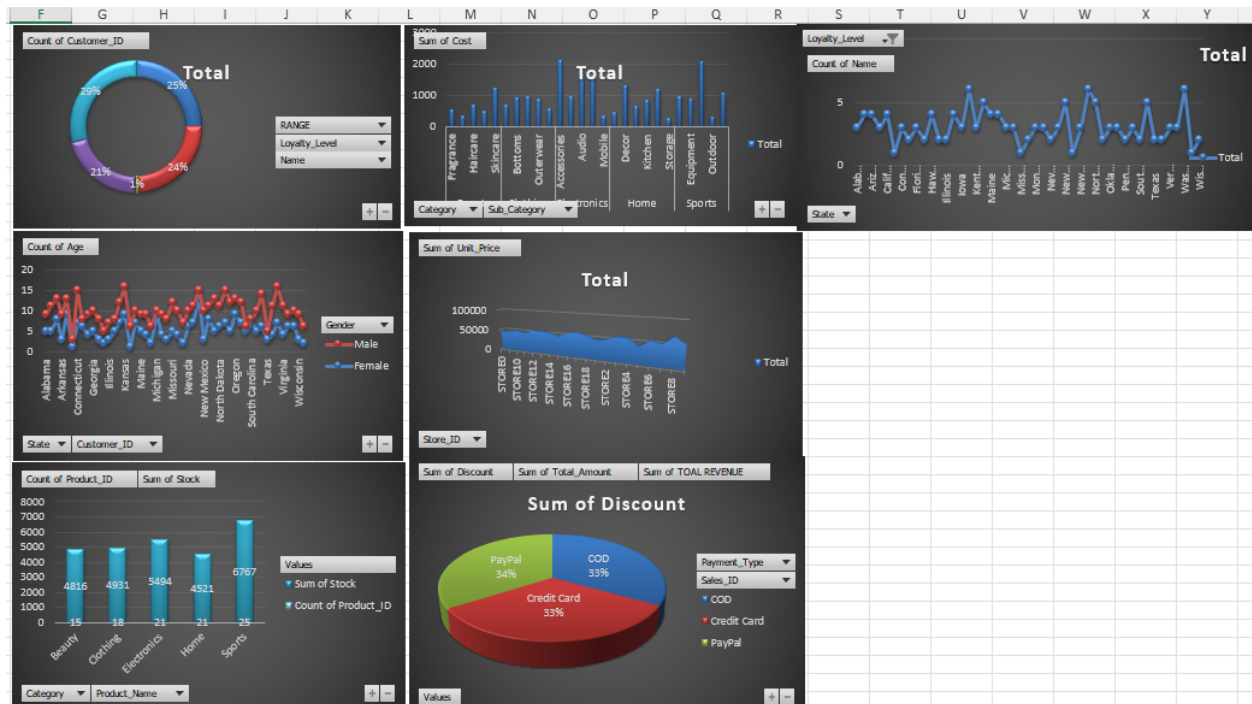

Descriptive analysis

MOST OF CUSTOMER USING PAYPAL DISCOUNT ALSO HIGH

CREDIT CARD CUSTOMER GIVE THE SAME DISCOUNT WILL INCREASE PRODUCTIVITY

DATASHEET

Conclusion:

The **Worldwide Company Analysis** project successfully examined and compared the performance of companies across different regions and industries using Microsoft Excel. Through data cleaning, statistical analysis, Pivot Tables, charts, and dashboards, valuable insights were obtained regarding sales performance, revenue trends, profitability, and overall business growth.
